PROFESSIONAL PROFILE

Motivated Applied Computer Science student at Egerton University with practical experience in web application development and a strong interest in building modern, responsive, database-driven web systems. Experienced with HTML, CSS, JavaScript, React, Node.js, PostgreSQL, MySQL, and MongoDB, with additional programming experience in Python, Java, and C++. Interested in solving real-world problems through software and developing professionally in a collaborative web development environment.

EDUCATION

Egerton University, Kenya

Bachelor's Degree in Applied Computer Science | 2024 – Present

Relevant coursework: Web Development, Database Systems, Software Engineering, Object-Oriented Systems, Data Structures and Algorithms, Computer Networks, Artificial Intelligence, Software Project Management, E-Commerce, Digital Image Processing, Computer Graphics and Visualization.

Ribe Boys High School, Kenya

Secondary Education | 2020 – 2023

TECHNICAL SKILLS

Web Development	HTML5, CSS3, JavaScript, React, Node.js, responsive design, REST APIs
Programming	Python, Java, C++, JavaScript
Databases	PostgreSQL, MySQL, MongoDB, database design, CRUD operations
Tools	Git, GitHub, Visual Studio Code, NetBeans, Maven, Windows, Linux
Software Development	OOP, MVC architecture, API integration, debugging, version control

PROJECT EXPERIENCE

Web Application Development

Developed and contributed to web-based applications using React, Node.js and PostgreSQL. Experience includes responsive interfaces, reusable frontend components, backend functionality, database integration, CRUD operations and Git/GitHub source-code management.

ShuleCloud

Web application project using React, Node.js and PostgreSQL, providing experience in frontend development, backend functionality, database integration and implementation of real-world user requirements.

RentalYetu

Web-based rental/property platform project using React, Node.js and PostgreSQL, with experience in web interfaces, application data management, backend development and database connectivity.

Python Lyrics Player

Python GUI application for playing songs with synchronized lyrics using audio files and .lrc lyric files. Developed experience in GUI development, audio/file handling and synchronized content display.

CURRENT DEVELOPMENT INTERESTS

- Web and full-stack application development
- Point-of-Sale and student management systems
- Online banking and database-driven applications
- AI-powered applications and API development
- Modern frontend, backend and cloud technologies

PROFESSIONAL STRENGTHS

- Problem solving and logical thinking
- Ability to learn new technologies independently
- Team collaboration and communication
- Database and application development
- Debugging and troubleshooting
- Attention to detail and willingness to learn

LANGUAGES

English — Good working proficiency **Kiswahili** — Good working proficiency
